Featured Projects

Apex school management system

A school management system built with role bases authentication, for admins, teachers and student. Core feature include automated result collation, student record management.

Technologies: Next.js + Supabase + TailwindCSS

Lana-Eclat

The official storefront and booking platform for Lana Eclat Skincare. The site features a product showcase, treatment menus and an integrated booking form that let client select service, pick a slot and confirm appointments.

Technologies: React.js + Gsap + TailwindCSS

Eateria

Eateria is a restaurant platform built to improve dining experience. Features include a menu showcase, real-time table availability, integrated online reservation system and an automated email confirmation

Technologies: Next.js + Resend + TailwindCSS

Persist

Persist is a digital legacy vault built on the Sui blockchain that provided secure temporal access control. Its core feature enables automatic agent succession when the primary agent becomes inactive, ensuring continuity.

Technologies: Sui move + Typescript + TailwindCSS + NextJs + Smart contracts + Framer motion

Chartlyx

Chartlyx is a lightweight React charting library, featuring composable line, bar, area, scatter, pie and radar components with full Typescript support.

Technologies: Typescript + React (18/19) + D3 modules + SVG + tsup + npm workspaces

Rubiek

Rubiek is an interactive 3D Rubik's Cube trainer that runs entirely in the browser as real-time WebGL not CSS transforms or sprites. The cube can be turned three ways: keyboard shortcuts, a color-coded on-screen move pad, or by typing standard cube notation.

Technologies: Typescript + React 19 + ThreeJs + Framer Motion + TailwindCSS
